PROFESSIONAL SUMMARY

IT Systems Administrator with 4+ years supporting users and infrastructure. Experienced in cloud identity management (Entra ID, Intune MDM), security operations, and enterprise automation using Microsoft Power Platform. CompTIA Security+ certified and actively pursuing a Microsoft AZ-104 certification.

WORK EXPERIENCE

IT Systems Administrator | *C3 Systems and Security* | May 2025 – Present

- Provided Tier 1-2 help desk support ranging from hardware, software, and vendor support.
- Managed Microsoft 365 environments using Exchange, Teams, SharePoint, Intune, Entra ID.
- Configured and managed networking equipment such as SonicWall firewalls and UniFi network stacks.
- Performed compromised account remediation, system vulnerability checks, and incident response.
- Scoped and worked on projects including server migrations, mail migrations, and network refreshes.
- Created and maintained technical documentation in efforts to standardize work processes.

Server Administrator | *Rocket Lab* | May 2024 – May 2025

- Maintained and monitored Microsoft, SQL, and Linux servers used by engineers for launch operations.
- Created a patch management schedule for all servers ensuring compliance and security for each system.
- Conducted audits via vSphere to identify and remediate vulnerable systems to reduce organizational risk.
- Researched and reviewed emerging cyberthreats and KB articles to ensure good cybersecurity practices.
- Created documentation for patch processes across Windows, SQL, and Linux OS environments.

IT Systems Administrator & Automation Specialist | *Honu Services Inc.* | Jan. 2022 – Oct. 2023

- Provided help desk support for basic hardware and software troubleshooting.
- Managed user accounts, mailboxes, groups, and policies in the Microsoft 365 environment.
- Managed user access and group policies for AWS EC2 instances.
- Designed and deployed automated workflows across all departments using Microsoft Power Platform.
- Created and revised technical documentation for work processes and automations.
